

Press release

Say Goodbye to Unwanted Pet Hair Today! Order PetVac®'s ShedEliminator Below!

We proudly present PetVac® news.

Our mission: The concept and primary concern of the PetVac® team is to focus on the well being of your pet in conjunction with a clean, and an as allergic free possible, environment in and around your house.

PetVac®: Many consumers bought a PetVac® with grooming brush but without our new magnificent de-shedding tool the ShedEliminator™. A real must have!

The ShedEliminator™ gently removes loose unwanted undercoat hair without cutting hair. Simply attach the ShedEliminator™ to your 15-foot long hose. (like you used to do with your PetVac® grooming brush) Pets aren't scared since they don't see the vacuum or hear the noise as you are suctioning unwanted hair to your PetVac® in another room.

The ShedEliminator™ is a patent pending de-shedding tool and can not be bought without a complete configuration including the 15-foot hose. Valued customers can **buy the ShedEliminator™ separately** for only \$34.99 excluding s/h.

The yellow reservoir of the PetVac® easily collects the loose pet hair every time you groom or de-shed your pet.

Keep your pet's coat groomed and healthy with the best pet grooming equipment on the market. PetVac® is guaranteed to prevent hairballs. Give your pet all the love, attention and superior grooming he/she deserves while keeping your home pet hair-free for you and your family!

Forget other pet grooming tools that create a big mess in and around your house.

Replaceable carding blades for ShedEliminator™: Replacement blades specially positioned to extend gradually for ShedEliminator™ **S - M - L** sizes. **Prices size S** for only \$ 12.99, **M** for only \$ 13.99 or **L** for only \$ 14.99 excluding s/h.
